COMPASS: THE COMPREHENSIVE PROGRAM ASSESSMENT SYSTEM
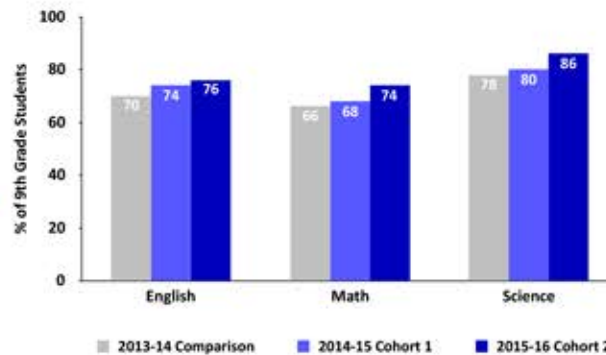

WHAT IS COMPASS?

A secure, online data management and evaluation tool that expedites data entry, organizes program data, generates reports, and conducts statistical analyses to evaluate and monitor program success.

WHY CHOOSE COMPASS?

The annual fee includes:

- Customization
- Data Hosting
- On-site Training
- Data Quality Inspections
- Extensive Technical Support
- Coordination of Data Collection

- Ongoing Data Formatting & Integration
- Access to CoBro Evaluator Consultation
- Format and Upload of all Legacy Data
- All Upgrades Released Throughout the Term of Contract

One cost, no surprises. Other providers charge additional fees for such services.

COMPASS SYSTEM FEATURES

- Data entry screens customized to specific program needs
- Automated reports of service participation and academic outcomes
- Batch entry feature for rapid recording of group activities
- Data file upload module allows user to directly upload files
- A statistics component that runs analyses to show program impact
- Automated computation of Annual Performance Report data tables

BENEFITS OF COMPASS

- Data files are electronically transferred into system on request or by the system user directly
- System is designed for speed, accuracy, and security
- One-touch functionality to compute APR-required data tables
- Conducts statistics and displays results in graphs and tables
- Generates over 75 reports with user-defined options

STATE TEST PROFICIENCY

Bar chart — % of 9th Grade Students

	English	Math	Science
2013-14 Comparison	70	66	78
2014-15 Cohort 1	74	68	80
2015-16 Cohort 2	76	74	86
